

Creative and Unique – Custom Photo Gifts for Friends and Family

- Online Lab WhiteWall Offers Photo Gifts for Every Occasion
- Treasured Images Made to Measure in Gallery Quality

Berlin, 7th February 2018 – In the search for personal gifts for Mother's Day, Father's Day, and Easter, the online photo lab [WhiteWall](https://www.white-wall.com) offers a wide range of ideas. From [WhiteWall Acrylic Minis](#) to [Acrylic Blocks](#) to [Photo Prints On Wood](#) to [Photo Books](#), beautiful memories can become eye-catching works of art in the blink of an eye.

To hang a picture or to stand it up? The answer lies entirely in the eye of the beholder! [WhiteWall Minis](#) are photo prints mounted under acrylic glass that are child's play to hang on the wall or – using the built-in magnet – on the refrigerator. They also include a stand for display on shelves, desks, or windowsills. These small acrylic pictures are especially suited for creative gallery walls of family photos, because it is very easy to exchange or add individual images. Slightly larger than a postcard, the [WhiteWall Acrylic Minis](#) can even be ordered from afar on [WhiteWall.com](https://www.white-wall.com) and sent in stylish packaging directly to someone special.

The [Acrylic Block](#) is a sculptural alternative to the [WhiteWall Mini](#). Developed on photo paper and mounted under 25 mm of acrylic glass, these pictures stand alone without any additional support. Five different sizes from 10x10 cm to 20x20 cm mean there is a perfect piece for any display. Perfect for desks, the [Acrylic Block](#) makes sure treasured memories are always close at hand.

For nature lovers, the [Direct Photo Print On Wood](#) is an excellent choice. The unique grain of unfinished birch makes every piece one of a kind. The wood is taken from the tree in a single piece so that the grain is consistent throughout, even in large formats.

For those who cannot decide on just one image, the [WhiteWall Photo Books](#) are a high-quality opportunity to immortalise their favourite photos. Whether hardcover or softcover, a small square or A3, the selection of various types of covers, formats and papers set no limits on the imagination.
