

# Wealth Management Software Market (2018-2024)

Full Report: <http://bit.ly/2WY3sNP>

# About Wealth Management Software Market

The Global Wealth Management Software Market size is expected to reach \$5.0 billion by 2024, rising at a market growth of 13.8% CAGR during the forecast period.

The term "Wealth Management" refers to an investment and consulting service that provides financial planning, investment management and other forms of financial advice.

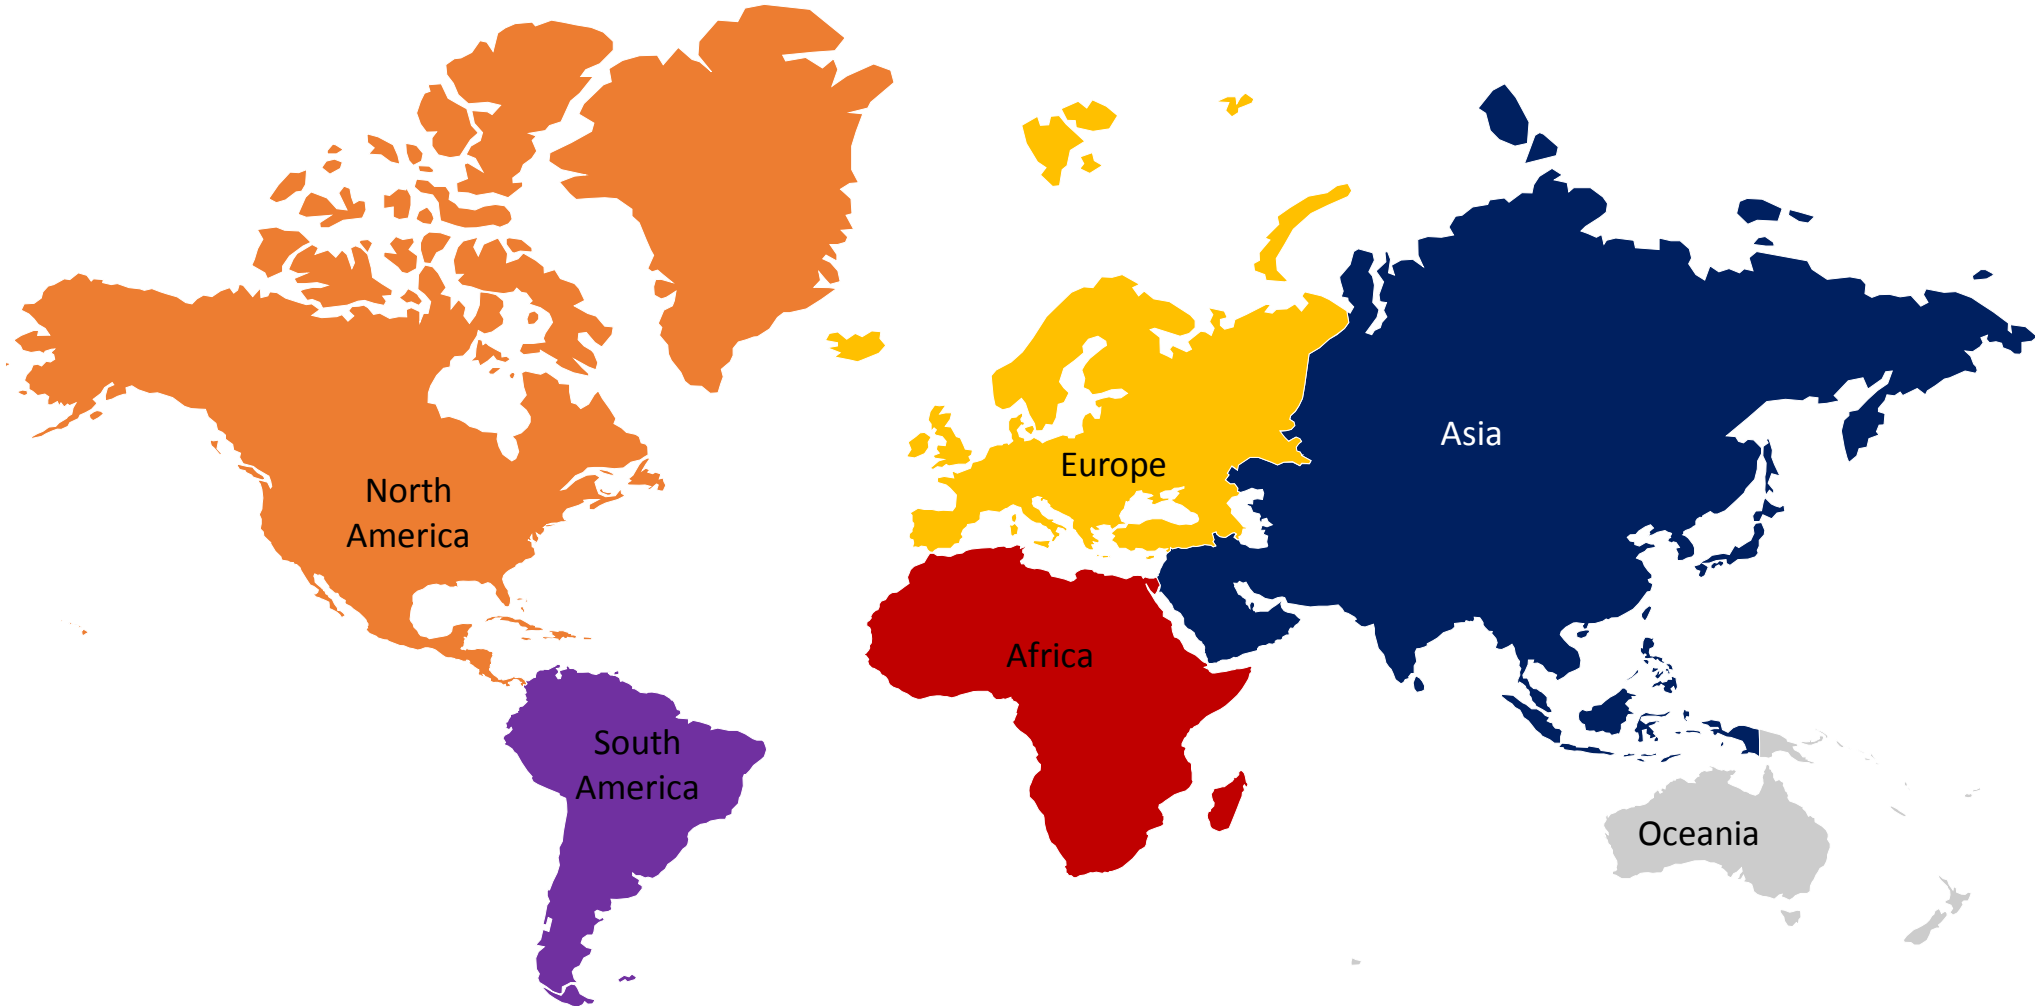

Clients like high net worth individuals and businesses who seek financial advice from a financial specialist and generally incorporate all of the client's financial assets are usually provided with asset management services, which are aimed at increasing their wealth.

The need to automate the wealth management process in digital devices is expected to drive the global market throughout the forecast period. Some of the biggest end users of wealth management software include banks, businesses, brokerage firms, forex traders and asset managers.
