MEASUREMENT AMPLIFIERS AND CONNECTION TECHNOLOGY

MESSVERSTÄRKER UND ANSCHLUSSSYSTEME

AMPLIFIERS

INTRODUCTION ABOUT US

Das Team von bmcm entwickelt und produziert messtechnische Produkte seit über 15 Jahren. Zuverlässigkeit, Bedienerfreundlichkeit und ein hervorragendes Preis-/ Leistungsverhältnis stehen im Vordergrund. Von Sensor bis zur Software stellen wir alle Komponenten der Messkette selbst her. Um höchste Kompatibilität zu gewährleisten haben wir die einzelnen Produktbereiche genau aufeinander abgestimmt und unsere Produkte halten sich an die gängigen Industriestandards.

Since more than 15 years the team of bmc develops and produces all kinds of components of measurement technology. Reliability, user-friendliness and an extraordinary price-performance ratio have top priority. From sensor to software we produce all components of the measuring chain. To guarantee highest compatibility we adjusted the various product groups carefully to each other and our products comply with current industrial standards.

quality made in

MEASUREMENT AMPLIFIERS AND BACKPLANES

5B AMPLIFIER TECHNOLOGY

5B Messverstärker ermöglichen die professionelle Anpassung von Signalen an ein Messsystem. Der Verstärkerausgang liegt im Bereich von $\pm 5V$ bzw. $0..5V$. Die meisten Module sind galvanisch trennend und bieten eine Sensorspeisespannung. Auf den folgenden Seiten 4-7 sind sowohl universelle Mehrbereichsverstärker (Erfassungsgrößen: Spannung, Strom, Widerstand, PT100, DMS, Thermoelement (Typ K), Trägerfrequenz) als auch Module mit spezieller Funktionalität (z. B. Filtermodule, Frequenz-/Spannungswandler, Impulsformer, Spannungsversorgung) erhältlich. Passende Backplanes zum Anschluss und zur Stromversorgung der Module finden Sie auf Seite 10 und 11.

5B measuring amplifiers allow for the professional conditioning of signals to a measurement system. The amplifier output is in the range of $\pm 5V$ or $0..5V$. Most of the modules are electrically isolating and provide sensor supply. On the following pages 4-7 multi-range amplifiers (measured quantities: voltage, current, resistance, PT100, strain gage, thermocouple (type K), carrier frequency) as well as modules with special functionality (e.g. filter modules, frequency/voltage converters, pulse shapers, power supplies) are available. You will find appropriate backplanes to connect and supply the modules on page 10 and 11.

MINIATURE AMPLIFIER TECHNOLOGY

Die Messverstärker der Serie MAL zeichnen sich besonders durch geringe Größe und Preis aus. Der Verstärkerausgang liegt im Bereich von $\pm 5V$ bzw. $0..5V$. Die Miniaturverstärker eignen sich für die Erfassungsgrößen Spannung, Strom, Widerstand, PT100, DMS und Thermoelement (Typ K) und sind auf Seite 8 und 9 erhältlich. Zur galvanischen Trennung von Signalen stehen die isolierenden Miniaturmessverstärker der MAL-ISO Serie zur Verfügung (s. S. 9). Nur die elektrische Isolation ermöglicht in vielen Fällen ein fehlerfreies Messergebnis bzw. macht potentialfreie Messungen möglich (Beispiel: Messungen an den einzelnen Zellen eines Akkumulators). Passende Backplanes zum Anschluss und zur Stromversorgung der Module finden Sie auf Seite 12 und 13.

The measuring amplifiers of the MAL series are especially characterized by its small size and price. The amplifier output is in the range of $\pm 5V$ or $0..5V$. The miniature amplifiers are suitable for the measured quantities voltage, current, resistance, PT100, strain gage and thermocouple (type K) and are available on page 8 and 9. For electrical isolation of signals the miniature amplifiers of the MAL-ISO series are provided (see page 9). In many cases only the electrical isolation produces an accurate measuring result or makes potential-free measurements possible (example: measurements at the individual cells of an accumulator). You will find appropriate backplanes to connect and supply the modules on page 12 and 13.

ACCESSORIES

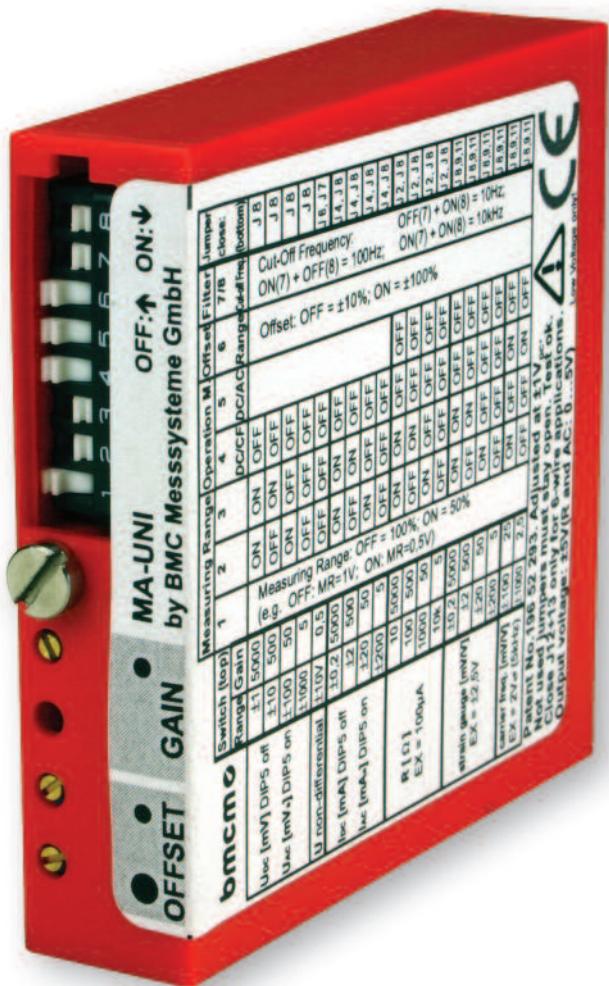

Oft im Hintergrund stehen die Zubehörprodukte. Diese leisten jedoch wertvolle Dienste einerseits zur Ergänzung Ihres Produkts, andererseits als Ersatzteil. Verschaffen Sie sich einen Überblick über erhältliches Zubehör für Messverstärker und Anschlusstechnik auf Seite 14.

Often in the background are the accessory parts. Those do a good turn on one hand by supplementing your product and on the other hand as a spare part. Get an overview of available accessories for measuring amplifiers and connection technology on page 14.

5B AMPLIFIERS

INDUSTRIELLER MESSVERSTÄRKER KOMPATIBEL ZUM 5B STANDARD
INDUSTRIAL MEASURING AMPLIFIER COMPATIBLE TO 5B STANDARD

AMPLIFIERS

MA-UNI

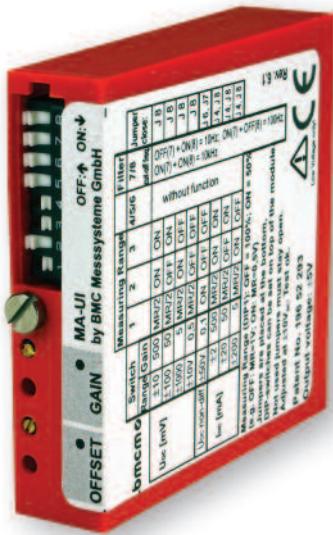

Der professionelle Universalmessverstärker mit galvanischer Trennung wird zur Messung von U, I, R, PT100, DMS und Trägerfrequenz eingesetzt und ist ideal insbesondere bei Verwendung passiver Sensoren.

The professional universal measuring amplifier with electrical isolation is used for the acquisition of U, I, R, PT100, SG and CF and is perfect especially when using passive sensors.

TECHNICAL DATA

- 5B compatible
- 10kHz bandwidth
- electrical isolation
- 3 switchable filter cut-off frequencies
- 10 switchable measuring ranges (max. ±10V)
- AC rectification
- integrated sensor supply ±2.5V DC, 4mA, 100µA, 2V_{eff} bei 5kHz AC
- DC or AC coupled
- adjustable with potentiometers

5bampifi

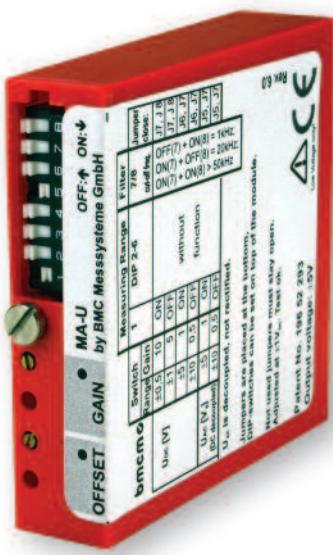

MA-U1

Der isolierende Mehrbereichsverstärker ist ideal für Strom- und Spannungsmessungen und zur galvanischen Trennung von aktiven Sensoren.

The isolating multi-range amplifier is perfect for current and voltage measurement and for the electrically isolated supply of active sensors.

TECHNICAL DATA

- 5B compatible
- 10kHz bandwidth
- electrical isolation
- 3 switchable filter cut-off frequencies
- 9 switchable measuring ranges (max. $\pm 50V$)
- integrated sensor supply (U and I) with different ranges
- DC or AC coupled
- adjustable with potentiometers

MA-U2

Der isolierende Spannungsmessverstärker mit 50kHz Bandbreite bietet alle Funktionen des 5B Standards.

The isolating voltage amplifier with 50kHz bandwidth features all functions of the 5B standard.

TECHNICAL DATA

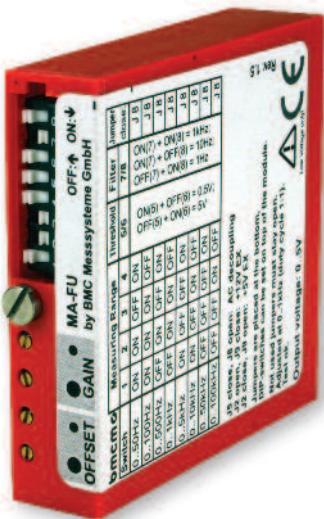

- 5B compatible
- 50kHz bandwidth
- electrical isolation
- 3 switchable filter cut-off frequencies
- 4 switchable measuring ranges (max. $\pm 10V$)
- integrated sensor supply (U and I) with different ranges
- DC or AC coupled
- adjustable with potentiometers

5B MODULES

PROFESSIONELLE FUNKTIONSMODULE FÜR VERSCHIEDENE EINSATZBEREICHE

PROFESSIONAL FUNCTION MODULES FOR DIFFERENT FIELDS OF APPLICATION

AMPLIFIERS

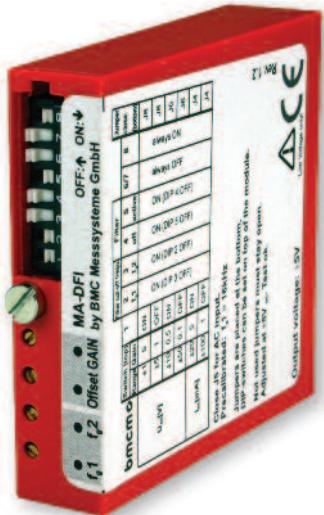

MA-FU

Isolierender Frequenz-/Spannungswandler für Messungen im Bereich von 0..100kHz

Isolating frequency/voltage converter for measurements in the range of 0..100kHz

TECHNICAL DATA

- 5B compatible
 - electrical isolation
 - 3 switchable filter cut-off frequencies
 - 8 switchable measuring ranges
 - integrated sensor supply $\pm 12V$ or $+5V$
 - adjustable with potentiometers
 - integrated sensor supply $\pm 12V$ (unregulated),
 $+5V$ (regulated)

MA-DFI

Universelles galvanisch trennendes Filtermodul mit hoher Filtersteilheit

Universal electrically isolating filter module with high filter gradient

TECHNICAL DATA

- ▶ 5B compatible
 - ▶ electrical isolation
 - ▶ 2 switchable filter cut-off frequencies
 - ▶ 4 switchable voltage ranges, 2 current ranges
 - ▶ with potentiometers continuously variable between 100Hz..20kHz
 - ▶ Butterworth characteristics 60dB/oct.
 - ▶ integrated sensor supply $\pm 12V$ (unregulated),
+5V (regulated) or 4mA
 - ▶ DC or AC coupled

MA-IF

Impulsformer-Modul zur Anpassung unterschiedlicher Pegel an einen TTL-Eingang (z. B. Zähler-eingang)

Pulse-forming module for the adjustment of different levels to a TTL input (e.g. counter input)

TECHNICAL DATA

- ▶ housing and pin assignment 5B compatible
- ▶ pulse input 1Hz..100kHz
- ▶ TTL output
- ▶ ±15V power supply (unregulated, isolated)
- ▶ AC decoupling

MA-P09 | MA-P12 | MA-P15

Diese preisgünstigen Module liefern je nach Version verschiedene Spannungen zur Versorgung von aktiven Sensoren. Das analoge Signal wird ohne galvanische Trennung 1:1 weitergeleitet.

According to requirements these reasonable modules provide different voltages for the supply of active sensors. The analog signal is transmitted 1:1 without electrical isolation.

TECHNICAL DATA

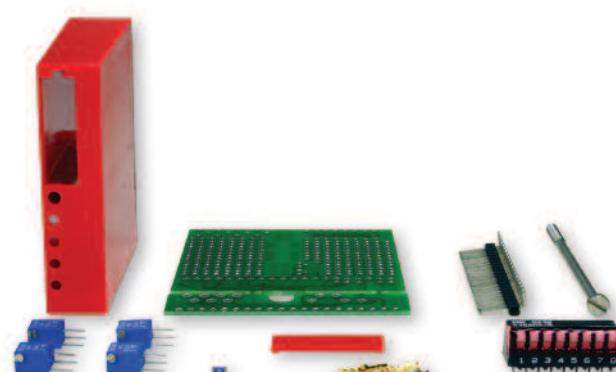

- ▶ 5B compatible
- ▶ sensor supply with unregulated ±9V, ±12V or ±15V, regulated +5V or 4mA

MA-KIT

Zur individuellen Entwicklung eines 5B Moduls bietet BMC Messsysteme GmbH den Bausatz MA-KIT an, der in Bauform und Pinbelegung kompatibel zur 5B Modulserie ist. Sie erhalten unter anderem eine Leerplatine mit Lochrasterfeldern und SMD-PADs, die sowohl konventionell als auch mit SMD-Bauteilen bestückbar ist.

For the development of a 5B module BMC Messsysteme GmbH offers the construction kit MA-KIT for your special needs. It is compatible to the 5B module series in type of construction and pin assignment. Among other things is included a blank card with breadboard fields and SMD pads which can be equipped both conventionally and with SMD components.

MINIATURE AMPLIFIERS MAL

KOSTENGÜNSTIGE MINIATURMESSVERSTÄRKER IM IC-FORMAT

REASONABLE MINIATURE MEASURING AMPLIFIERS IN IC FORMAT

AMPLIFIERS

8

MAL-UI | MAL-PT100 | MAL-R1K | MAL-SEIKA | MAL-SG2 | MAL-SG5 | MAL-THR

Miniaturmessverstärker für verschiedene
physikalische Größen

*Miniature measuring amplifier for different
physical quantities*

TECHNICAL DATA

- ▶ size: like 24-pole DIL-IC
- ▶ 50Hz bandwidth
- ▶ differential input
- ▶ output filter 6dB/oct.
- ▶ integrated sensor supply

Miniature Amplifiers	MAL-UI	MAL-PT100	MAL-R1K	MAL-SEIKA	MAL-SG2/SG5	MAL-THR
Physical quantity	voltage, current	temperature (PT100)	resistance	for SEIKA sensors	strain gauge (DMS)	thermocouple (type K)
Measuring range	±10V, ±5V, ±1V, ±20mA	0..300°C	0..1kΩ	±0.5V (offset: 2.5V)	±2mV/V or ±5mV/V sensitivity	0..1250°C
Additional features	5V excitation	linearized		2.5V mid-position	5V DC excitation (non-linearizing)	

miniatura

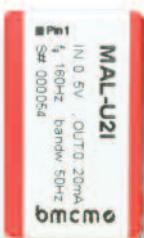

MAL-FU

Isolierender Frequenz-/Spannungswandler für Messungen im Bereich von 0..10kHz

Isolating frequency/voltage converter for measurements in the range of 0..10kHz

TECHNICAL DATA

- size: like 24-pole DIL-IC
- electrical isolation
- 1Hz bandwidth
- output filter 6dB/oct.
- measuring ranges 0..100Hz, 0..1kHz, 0..10kHz
- input 4..25V

MAL-U21

Miniaturmessumformer zur Wandlung von Spannung nach Strom

Miniature measuring converter for transforming voltage to current

TECHNICAL DATA

- size: like 24-pole DIL-IC
- measuring ranges 0..10V, 0..5V
- output range 0..20mA
- output filter 6dB/oct.

ISOLATING MINIATURE AMPLIFIERS MAL-ISO

KOSTENGÜNSTIGER MINIATURMESSVERSTÄRKER MIT GALVANISCHER TRENNUNG

REASONABLE MINIATURE MEASURING AMPLIFIER WITH ELECTRICAL ISOLATION

MAL-ISO10 | MAL-ISO5 | MAL-ISO1

Miniaturmessverstärker mit galvanischer Trennung und verschiedenen Eingangsspannungsbereichen zur Spannungs- und Strommessung (nur MAL-ISO1)

Miniature measuring amplifier with electrical isolation and different input ranges for voltage and current (MAL-ISO1 only) measurements

TECHNICAL DATA

- size: like 24-pole DIL-IC
- electrical isolation
- 50Hz bandwidth
- differential input
- measuring ranges $\pm 10V$ (MAL-ISO10), $\pm 5V$ (MAL-ISO5) or $\pm 1V$ and $\pm 20mA$ (MAL-ISO1)
- output filter 6dB/oct.

Preise und Datenblätter: www.BmcM.de

BACKPLANES FOR 5B MODULES

DIE 5B MODULE BENÖTIGEN EINE TRÄGERPLATINE ZUR STROMVERSORGUNG UND ZUM SIGNALANSCHLUSS.
THE 5B MODULES REQUIRE A BACKPLANE FOR POWER SUPPLY AND SIGNAL CONNECTION.

AP2 | AP8

Trägerplatine für zwei (AP2) bzw. acht (AP8) 5B-Module

Carrier board for two (AP2) or eight (AP8) 5B modules

TECHNICAL DATA

- ▶ 2 (AP2) or 8 (AP8) channels
- ▶ 5B compatible
- ▶ 7-pole input terminals
- ▶ integrated wide-range power supply unit 9..45V
- ▶ 8 direct switches for operation without modules (AP8)
- ▶ with holder for hat rail mounting

AAB-II

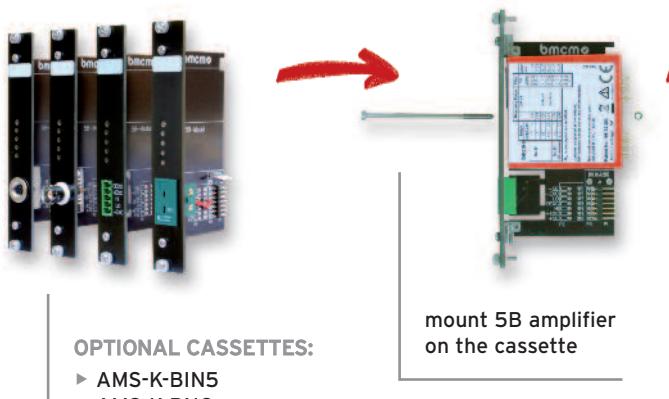

Äußerst kompaktes Messverstärkergehäuse für acht 5B-Module

Extremely compact measuring amplifier box for eight 5B modules

TECHNICAL DATA

- ▶ 8 channels
- ▶ 5B compatible
- ▶ 5-pole binder sockets for input signals
- ▶ integrated wide-range power supply unit 9..45V
- ▶ 7 direct switches for operation without modules
- ▶ aluminum housing
- ▶ installable in two 5 1/4" bays of a PC placed upon each other
- ▶ registered protection of utility patents

backplan

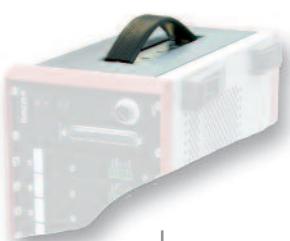

OPTIONAL CASSETTES:

- ▶ AMS-K-BIN5
- ▶ AMS-K-BNC
- ▶ AMS-K-CO5
- ▶ AMS-K-THK

insert cassette in the plug-in position of the amplifier rack

optional: handle

AMS42/84

Modulares Messverstärkersystem mit individuellen Steckverbindern. Ermöglicht die professionelle Nutzung von 5B-Messverstärkern in einem 19"-Rack. Erhältlich in halber (42TE) oder voller (84TE) Baubreite. 42TE-Version mit Aufstellfüßen. 84TE-Version mit Befestigungswinkeln zur Rackmontage.

Modular measuring amplifier system with individual plug connectors for professional use of 5B measuring amplifiers in a 19" rack. Available in half (42TE) or full (84TE) construction width. 42TE version with rectable feet. 84TE version with fastening brackets for rack mounting.

TECHNICAL DATA

- ▶ stable 19" rack with 42TE (AMS42) or 84TE (AMS84) width
- ▶ 8 (AMS42) or 16 (AMS84) slot for plug-in cassettes
- ▶ extendable to 16 (AMS42) or 32 (AMS84) slots for cassettes
- ▶ 5B compatible
- ▶ plug-in cassettes with different connectors available as accessory

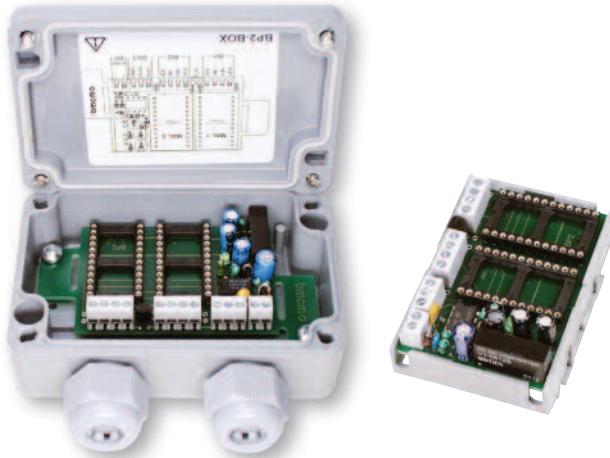

also available as a complete solution with integrated USB or LAN data acquisition system

BACKPLANES FOR MAL MODULES

DIE TRÄGERPLATINEN ERMÖGLICHEN DEN FLEXIBLEN EINSATZ DER MAL-MESSVERSTÄRKER FÜR DIE UNTERSCHIEDLICHSSTEN ANWENDUNGEN.

THE BACKPLANES ALLOW FOR THE FLEXIBLE USE OF THE MAL MEASURING AMPLIFIERS FOR THE MOST DIFFERENT APPLICATIONS.

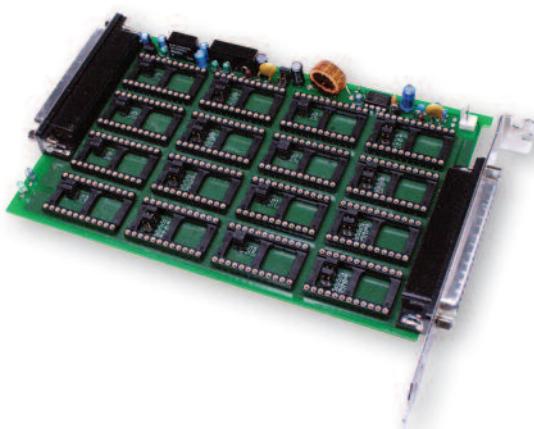

BP2 | BP2-BOX

Kleine Trägerplatine für zwei MAL-Module

Small backplane for two MAL modules

TECHNICAL DATA

- ▶ 2 DIL sockets for MAL amplifiers
- ▶ connection via screw terminals
- ▶ isolating power supply 9..45V DC
- ▶ DIN rail carrier (BP2) or IP65 housing (BP2-BOX)

BP16-PC

Trägerplatine im Euroformat für 16 MAL-Module

Euro-sized backplane for 16 MAL modules

TECHNICAL DATA

- ▶ 16 DIL sockets for MAL amplifiers
- ▶ for PC mounting
- ▶ signal connection at 37-pole Sub-D female connector
- ▶ amplifier outputs at 37-pole Sub-D female connector compatible to bmc measurement systems
- ▶ isolating power supply 12V DC from PC

backplane

■ BP16

Trägerplatine im Alugehäuse für 16 MAL Messverstärker

Backplane in aluminum housing for 16 MAL measuring amplifiers

TECHNICAL DATA

- ▶ 16 DIL sockets for MAL amplifiers
- ▶ compatible to bmc measurement systems
- ▶ signal connection at 37-pole Sub-D female connector
- ▶ power supply directly from bmc devices or 9..45V DC

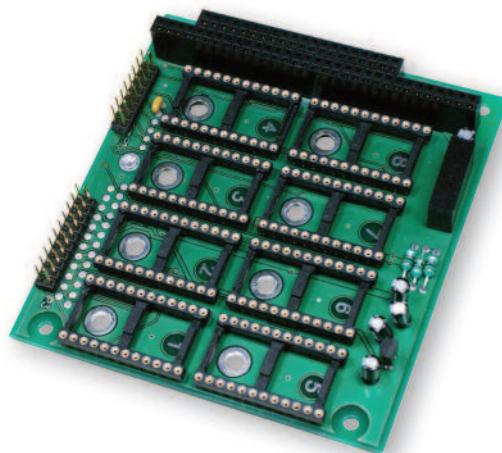

■ BP104

PC/104-Platine für acht MAL-Module

PC/104 backplane for eight MAL modules

TECHNICAL DATA

- ▶ 8 DIL sockets for MAL amplifiers
- ▶ connection of the inputs/outputs via pin connectors
- ▶ integrated power supply electrically isolated from PC/104 bus

ACCESSORIES

ZU-PW10W

Steckernetzteil mit 3-poliger DIN-Buchse zur Versorgung von bmc Geräten mit Kleinspannung
Plug power supply with 3-pole DIN socket to supply bmc hardware with low voltage

TECHNICAL DATA

- ▶ electrically isolated from 230V_{AC} mains supply
- ▶ IN: 200-240V_{AC}, max. 20VA
- ▶ OUT: 12V_{DC}, 1A, unregulated, 12W

USE FOR:

- ▶ AAB-II
- ▶ AP2, AP8
- ▶ BP2, BP2-BOX, BP16

ZU-PW70W

Tischnetzteil mit 3-poliger DIN-Buchse und Netzkabel zur Versorgung mit Kleinspannung
Plug power supply with 3-pole DIN socket and power cable for the supply with low voltage

TECHNICAL DATA

- ▶ electrically isolated from 230V_{AC} mains supply
- ▶ overload protected
- ▶ IN: 90-260V_{AC}, max. 85VA
- ▶ OUT: 24V_{DC}, 2.92A, regulated, 70W

USE FOR:

- ▶ AMS42
- ▶ AMS84

ZU-SI375M

Packung mit 10 Sicherungen
Package of 10 fuses

TECHNICAL DATA

- ▶ max. 375mA
- ▶ solderable

USE FOR:

- ▶ MA-UNI, MA-UI, MA-U
- ▶ MA-FU, MA-DFI, MA-IF
- ▶ MA-PO9, MA-P12, MA-P15
- ▶ MA-KIT

AMS-K

Kassetten für 5B Module mit Blenden und individuellen Anschlussbuchsen
Cassettes for 5B modules with brackets and individual connector sockets

TECHNICAL DATA

- ▶ AMS-K-BIN: with 5-pole Binder female connector
- ▶ AMS-K-BLANK: blank bracket
- ▶ AMS-K-BNC: with BNC female connector
- ▶ AMS-K-C05: with 5-pole terminal connector
- ▶ AMS-K-THR: with thermocouple connector type K

USE FOR:

- ▶ AMS42
- ▶ AMS84

ZU-TR

Temperaturreferenzsensor für Thermoelementmessungen mit Ausgleichstelle
Temperature reference sensor for thermocouple measurements with compensation

TECHNICAL DATA

- ▶ LM35DZ semiconductor sensor
- ▶ ±1°C absolute accuracy

USE FOR:

- ▶ MAL-THR

ZU-SCHI

Set zur Hutschienen- oder Wandbefestigung für BP16
Kit for wall or DIN rail attachment

ZU5S712

5-poliger Stecker zum Anschluss von Analogsignalen an die AAB-II
5-pole plug to connect analog signals to the AAB-II

AAB-KAPC

Kabelsatz zur internen Verkabelung der AAB-II mit interner PC-Messkarte und PC-Netzteil
Cable kit for internal cabling of the AAB-II with internal PC measuring card and PC power supply

accessories
